CODE REPOSITOY:https://github.com/Ananthu

SUMMARY :

Information Technology fresher passionate about Programming. Currently learning Python/Javascript etc by reading books, writing code and participating in MOOC's. Looking forward to working with a team of enthusiastic programmers preferably on Linux/Open Source based technologies.

Education   : Government Engineering College Palakkad,
                                             Information Technology
                                             2012-2016 Batch with 7.5 average cgpa

Technical Skills
            Languages   : Python,C,Exposure to Javascript.
                                        HTML with basics of css and bootstrap

            Frameworks   : Django

            Version control   : Git
            Operating Systems : Linux ,Windows

ONLINE-COURSES:
- Programming, Data Structures and Algorithms in Python
  https://onlinecourses.nptel.ac.in/noc16_cs11/preview
- Introduction to Modern Application Development
  https://onlinecourses.nptel.ac.in/noc16_cs23/
- Introduction to Linux
  https://www.edx.org/course/introduction-linux-linuxfoundationx-lfs101x-0

Learning Activities:

- Modern Application development course
  https://github.com/Ananthu/imad-2016-app

- Reading "Think Python" and working out the exercises
  https://github.com/Ananthu/think-python-solutions

- Working out exercises provided by "Google Python Class"
  https://github.com/Ananthu/google_python

- Studied Python code for Huffman Data Compression and it converted to JavaScript.
  https://github.com/Ananthu/huffman_data_compression_javascript
  https://github.com/Ananthu/huffman_data_compression_python

- Python Test Driven Development.
  https://github.com/Ananthu/Dive-In-To-Python

- Basic Web development using HTML and CSS.
  https://github.com/Ananthu/Web-devolopment

- Created a simple web server using python Socket programming
  https://github.com/Ananthu/Simple_HTTP_Server-using-Python

- Created a Paint application using the Javascript and HTML
  https://github.com/Ananthu/My_paint_App

- Created a simple Blog using the Django Frameworks
  https://github.com/Ananthu/First-Blog

- Detailed blog by watching the Youtube videos
  https://github.com/Ananthu/

- made an MCQ app with user registration and admin feature
  https://github.com/Ananthu/MCQ-app-mutile-choice-question-app-

- Completed a basic E-commerce site
  https://github.com/Ananthu/E-commerceApp-using-python-library

- E-commerce site using the bootstrap for thumbnail view
  https://github.com/Ananthu/E-commerceApp-using-bootstrap
